

ROLLER LUBE-UV

Anti Friction Compound & Lubricant (UV-HUV-Energy Cure)

**Compatible for use on EDPM & other roller compounds for UV inks*

Roller Lube-UV is designed for use on the unit, or units, of a multi color press being run with no ink. Roller Lube-UV helps reduce friction & over-heating of inking rollers.

- Compatible for use on *EDPM and other roller compounds using UV inks.*
- Lubricates while preventing heat build up
- Helps pull some ink residue out of rollers
- Zero Petroleum
- Low odor

Direction For Use:

Apply directly to ink distributor rollers ensuring sufficient is applied to thoroughly coat each roller. Ensure they stay thoroughly coated ,applying more if or as needed. ***DO NOT ALLOW TO DRY UP.**

To Remove:

Wash up with your current UV roller wash.
