

# TURBO CLEAN

## Impression Cylinder & General Cleaner

Turbo Clean lifts and removes wet ink and paper coatings off of the impression cylinder, reducing picking & other issues during longer runs. It even cuts right through older caked up ink and paper coating. Use it to clean up the side frames of inks and coatings and as a general cleaner.

- Cleans the dirtiest impression cylinders
- Cleans wet or damp aqueous coating & ink from side frames
- Pleasant citrus odor with good ink solvency for fast ink removal & cleaning
- Removes water-soluble material, paper debris, spray powder, gum etc
- Can be used on molten dampening sleeves High viscosity, easy to apply paste
- Contains no abrasives

### Direction For Use:

Dilute with water if desired.

### Impression Cylinder:

Pour a liberal amount onto a rag, sponge or use a trigger sprayer. Rub entire cylinder with a side to side motion until clean.

### Molten Dampening Sleeves:

Remove roller with sleeve and spray or pour Turbo Clean onto it adding more when needed. Use a soft scrub brush with a side-to-side motion across the length of the roller moving around the roller until roller is completely scrubbed. Once satisfied the molten dampening sleeve roller is cleaned, rinse the roller off with clean water until all Turbo Clean and debris are removed and place roller back into system.

### Specifications:

VOC content lb. / gallon	2.2
VOC content grams / liter	258
Flashpoint	130°F
Color	Blue
CA. Compliant	No

### Available In:

Product Code	Unit	Case Qty.
10009C	1 Quart (0.946 ltr)	6
10009D	1 Gallon (3.785 ltr)	4
10009G	55 Gallons (208 ltr)	Each
