

## V-1000

### One Step Fountain Solution

With advanced wetting, lubrication & decalcifiers

V-1000 fountain solution has multiple calcium carbonate neutralizers. Multiple types of surfactants and thickeners are added to keep your fountain water surface tension low and thicker so more of it is on non-image area allowing plates to stay wet longer.

Along with these performance-enhancing ingredients we also incorporated a lubricant to help keep your blanket clean longer, helping to reduce paper lint and piling.

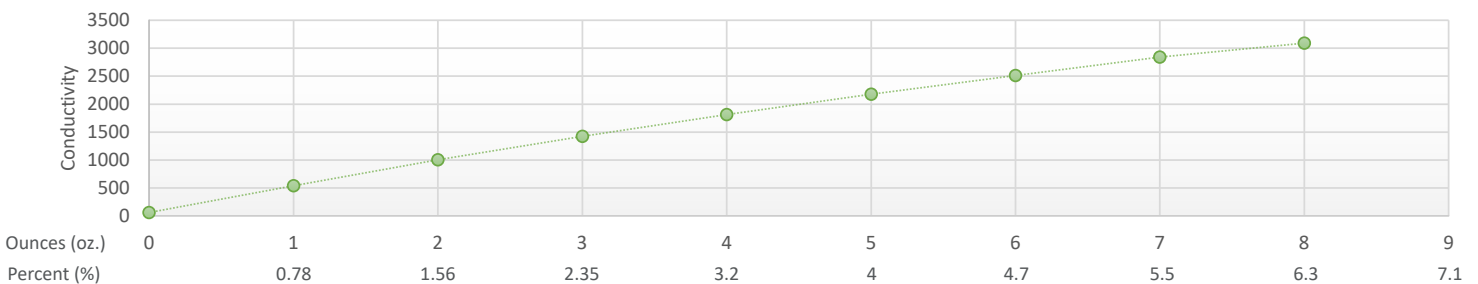

- Replace 1 or 2 part fountain and alcohol subs.
- Excellent wetting and viscosity building properties, reduces surface tension to the low 30's.
- Razor sharp reverses, cleaner screens, improved ink taping, denser solids.
- Suitable for all offset inks including UV / EB / HUV.
- Compatible with all metal plates, conventional, CTP and non-metal laser plates.

**Dosage Range:** 3.5oz. - 5oz. / gallon.  
We recommend starting with 4oz. - 5oz. / gallon, adjusting dosage up or down as needed.

**Dosage Range:** 2.75% - 4%.  
We recommend starting with 3.5% - 3.6%, adjusting dosage up or down as needed.

CONDUCTIVITY/ $\mu$ mhos

#### Specifications:

VOC content lb. / gallon	4.0
VOC content grams / liter	481
Flashpoint	None
Color	Colorless
CA. Compliant	Yes

#### Available In:

Product Code	Unit	Case Qty.
10654GSD	1 Gallon (3.785 ltr)	4
10654GSE	5 Gallons (18.9 ltr)	Each
10654GSG	55 Gallons (208 ltr)	Each
10654GST	275 Gallons (1,040 ltr)	Each

VOC COMPLIANT Air Quality Management District Compliant
